

**SMART AND SIMPLE MEDICAL e-DEVICES
FOR COMBINATION THERAPIES IN
IMMUNO-ONCOLOGY**

How to administer combination therapies?

Sequential administration is today's choice in Immuno-Oncology
But its **time consuming for the patient and medical staff and complicated**
– which may lead to dosing errors
Example of triplets

Fixed ratio combinations are tempting but remain **challenging**:

One ratio only

Complicated: same ratio may not fit all patients and/or cancer types

Long discussions with Regulatory authorities

Several ratios

Several ratios may lead to **confusion** and **dosing errors**

Need long term stability studies

Complicated logistics and storage

Hard to justify premium price

Multiple clinical studies

Multi packaging development programs

Intuity Mix is our solution for a concurrent administration

- Reusable part:
- Disposable cassette adapted to all standard primary containers – 1 cassette = 1 treatment (Adapted to multi vials + IV injection)
- Connected & smart e-device (Data tracking, Data sharing via GSM, drug recognition)

How it would work?

MD

Decides combination treatment + dosing regimen

Medical staff

Connects drug and solvent to Intuity® Mix + programs the dosage using the friendly interface

Patient

The combined products are mixed and prepared automatically for IV injection

Value proposition

- Personalized treatment
- Full dosage control
- Traceability
- Simple to use and reduced errors
- Time saving
- Fully automatic
- Safe : No contact with potentially toxic products
- Less product loss

- Personalized treatment
- Time saving
- Reduced dosing errors

- Faster time-to-market
- Devices platform
- Development tool
- Competitive advantage
- Simpler logistics

 2009 incorporation	 100% focused on medical devices design, development and manufacturing	 HQ in France (Grenoble) Office in US (Boston)	 ~30 Employees 50% dedicated to R&D
 Recognized partners   	 Intuity® technology platform 13 patent families	 Strong internal skills Microfluidics, Software, Electronics, Mechanics, Automation, Industrialization	 Strong Quality Management ISO 13485 IEC 62304
