

SMART AND SIMPLE MEDICAL DEVICES FOR SPRAY DELIVERY

How to do topical administration ?

New drugs such as high viscosity products are challenging for treatment and delivery both for patients and healthcare professionals.

Our solution

EVEON offers modular solutions for **automated airless spray device** for topical treatment and delivery, adaptable for various drugs.

Better monitoring

Flow rate, dosage

Better access

Delivery to limited access area

Improved surface covering

Precise delivery of small dose on large surface area

Safe

Non-contact delivery, non-invasive

Spray of liquids and gels

Soft and gentle mist for highly viscous solutions, airless

Easy-to-use

Automated delivery

Examples of therapeutic areas

Ophthalmology

Respiratory

Dermatology

Oral

Airless spray is our solution for non-contact delivery

- Reusable device + disposable & sterile spray nozzle
- Adapted to standard primary containers
Unidose or multidose
- Connected & smart e-device. Data tracking, data sharing via GSM, drug recognition

How it would work? *For Homecare or Professional care*

Value proposition

 <p>2009 incorporation</p>	 <p>100% focused on medical devices design, development and manufacturing</p>	 <p>HQ in France (Grenoble) Office in US (Boston)</p>	 <p>~30 Employees 50% dedicated to R&D</p>
 <p>Recognized partners</p>    <p>oranomed PMB ALCEN</p>	 <p>Intuity® technology platform</p> <p>13 patent families</p>	 <p>Strong internal skills Microfluidics, Software, Electronics, Mechanics, Automation, Industrialization</p>	 <p>Strong Quality Management ISO 13485 IEC 62304</p>
